ABOUT US

Our mission is to manufacture competitively priced, high-quality ammunition components for the ammunition industry.

DKC started its journey in 2009 as a family-owned and operated establishment. Within a few years, DKC grew to 100+ associates and became the largest lead processing and recycling facility in its region, providing the highly needed raw material to the market as well as manufacturing lead core, lead shot, buckshot, slugs, lead wire, and lead billets.

Listening to the demands of its customers in 2019, DKC started to produce FMJ projectiles as well as brass cases. In 2022, we continued building strong partnerships with manufacturers across America, Eurasia, Asia, and Africa while our 9mm case and FMJ projectile production capacity reached 350 million pieces per year.

DKC continues to reinvest, serving valued ammunition manufacturers with additional caliber brass and projectiles. Recently, we have expanded our facility with another state-of-the-art production line of 5.56 mm brass and FMJ projectiles. Other calibers are planned for the near future.

In this fast-paced environment, we continue to enhance our customer service and logistics capabilities to better serve our customers needs. Our US-based branch carries local stock of brass and projectiles that can be shipped within a few days of order confirmation.

Please contact us to request samples, place an order or ask questions about our products.

7.62x51MM NATO FMJ AND 7.62X39MM FMJ BULLETS

DKC is capable of manufacturing 7.62x51mm NATO FMJ and 7.62x39mm FMJ Bullets. All our semi-processed products such as bullet cups and lead cores are checked by hightechnology automatic gauging and visual inspection machines in terms of their weight, and visual & dimensional conformance.

Product Details

BULLET TYPE	7.62X51MM
CORE:	LEAD
JACKET	CUZN10

BULLET TYPE	7.62X39MM
CORE:	LEAD
JACKET	CUZN10

5.56x45MM BRASS CASES

As a NATO-certified facility, we manufacture 5.56x45mm brass cases that also comply with the SAAMI, CIP and other military or customer desired standards or requirements. All of our components are subjected to the highest quality control standards by using hi-tech automatic gauging and visual inspection machines that ensure every piece produced is to the exact dimensions specified. We have OEM services to customize your headstamp to reflect your brand.

Product Details

CASE TYPE	.223 REM & 5.56X45MM NATO
MATERIAL	BRASS (CUZN30)
PRIMER POCKET	BOXER

5.56x45MM FMJ BULLETS

DKC is capable of manufacturing 5.56x45mm NATO 55-grain FMJ [M193] and 5.56x45mm NATO 62-grain FMJ Bullets, SS109 / M855. All our semi-processed products such as bullet cups and lead cores are checked by high-technology automatic gauging and visual inspection machines in terms of their weight, and visual & dimensional conformance.

Product Details

BULLET TYPE	.223 REM / 5.56X45MM M193
WEIGHT	55 GRAIN
CORE:	LEAD
JACKET	CUZN10

BULLET TYPE	5.56X45MM M855 / SS109
WEIGHT	62 GRAIN
CORE:	LEAD
JACKET	CUZN10

9X19MM BRASS CASES

Our military-grade brass cases are produced as per NATO standards. All of our components are inspected with state-of-the-art optical inspection systems as well as traditional visual inspection and quality controls ensuring every piece produced exceeds even the most demanding manufacturers. We have OEM services to customize your headstamp to reflect your brand.

Product Details

CASE TYPE	9X19MM
MATERIAL	BRASS (CUZN30)
PRIMER POCKET	BOXER OR BERDAN

9x19MM FMJ BULLETS

DKC is capable of manufacturing 9 mm FMJ bullets in various weights and shapes such as 9×18 Makarov, 9×19mm 115 grain, and 9×19mm 124 grain with a monthly capacity of 15 Million pieces.

Product Details

BULLET TYPE	9X19MM
WEIGHT	115 OR 124 GRAIN
JACKET	BRASS (CUZN30) OR GM (CUZN10)

9x19MM JACKETED HOLLOW POINT

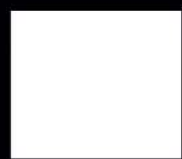

DKC is capable of manufacturing 9mm 124 grain Jacketed Hollow Point bullets with a monthly capacity of 5 Million pieces. All process are inspected by states-of-the-art optical inspection systems and also traditional visual inspection methods.

Product Details

BULLET TYPE	9X19MM
WEIGHT	124 GRAIN
JACKET	CUZNI0

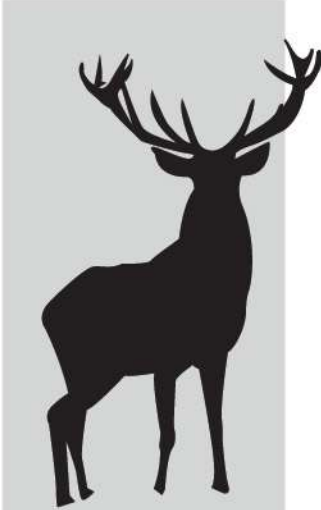

BUCKSHOTS

DKC produces perfectly rounded shotshells with a diameter ranging from 4 mm up to 9,65 mm and it offers shots to the local and international markets with a capacity of 300 metric tons per month.

BUCK SHOT

4 mm	4.30 mm	4,50 mm	4,75 mm

5.00 mm	5.16 mm	5.25mm	6.20 mm

7.40 mm	7.62 mm	7,80 mm	8.00 mm

8,43 mm	8,60 mm	9,14 mm	9,65 mm

Copper	Nickel

* It is possible to plate the buckshot with copper or nickel by the customer's request.

12 CAL. GLOBAL SLUG

Produced in-house by DKC, our 12 CAL hunting slugs meet the highest quality standards. Aerodynamically designed for precision, DKC manufactures the best slugs for deer and other big game. Air channels help quickly and accurately hit the target.

RAW MATERIALS

LEAD INGOT

DKC has the largest capacity lead processing facility in its territory. Pure lead or antimonial lead is manufactured into ingots per our customers needs.

LEAD BILLET

Lead billets 7 cm in diameter, 18 cm in length, and a weight of 8 kg are specially designed to feed lead wire extrusion machines.

LEAD WIRE

Per our customer's request we produce lead wire spool with wire diameters ranging between 3mm to 16 mm.

LEAD CORE

Our lead cores are inspected by laser gauging machinery in terms of their weight, and dimensional conformance, allowing a smoother FMJ projectile production.
